

# Synology - Upgrade 1515+ to 1517+

Worked like a charm

|                       |                                                          |
|-----------------------|----------------------------------------------------------|
| Server name           | <div></div> <a href="#">(Edit)</a>                       |
| DSM version           | DSM 7.1.1-42962 Update 8                                 |

Revert Back to 1515+

Synology DOM module pinout

Plug into the 2nd row, i.e. straight pins, with normal USB assignment.

2 red

4 white

6 green

8 black
