

Dataset - Restrict Date in MAP MES VUE ESP

This is to freeze a datasets for different Kiwiplan modules.

MAP / CLASSIC / FFF

Create a file named [PROFILE] in the KIWISEA path. The best place to put it is in the \$DATA folder. The DATA and TIME are the settings you wish to freeze the data at.

```
RESTRICT:  
DATE:160725  
TIME:0700
```

VUE

There are a couple of places you will need to have a file named [time.properties] and you will need to create and save a file in each folder with the following entry:

```
time=16/07/2025 07:00:00
```

Linux Server

```
/KIWI/services/sites/<sitename>/current/conf/kiwiplan  
/KIWI/services/web/<sitename>/current/conf/kiwiplan
```

Windows Server (Client Install)

```
C:\Kiwiplan\<install folder>\conf\kiwiplan
```

ESP

Create a file named [PROFILE.INI] to hold the database you wish to freeze in time with the following entry:

```
[SFL]  
StartDateTime=07/16/2025 07:00:00
```

TimeZone=US Eastern Standard Time

LocaleID=1033

[DBLABELMAPPING]

ESP_LIVE=SFL

The sections are set like the following:

[DBLABELMAPPING] example

DBNAME=SECTION_NAME

[TimeZone] examples

US Eastern Standard Time

Central Standard Time

GMT Standard Time

New Zealand Standard Time

[LocaleID] code page example

1033

1062

5129

Windows Server (ESP Installation)

C:\Kiwiplan\EspServ\
