

# Windows 11 - Bypass Microsoft Account Requirement

Once on the following screen make sure you disconnect from the internet or have no internet connection and hit the "Shift-F10" keys to open a command prompt.

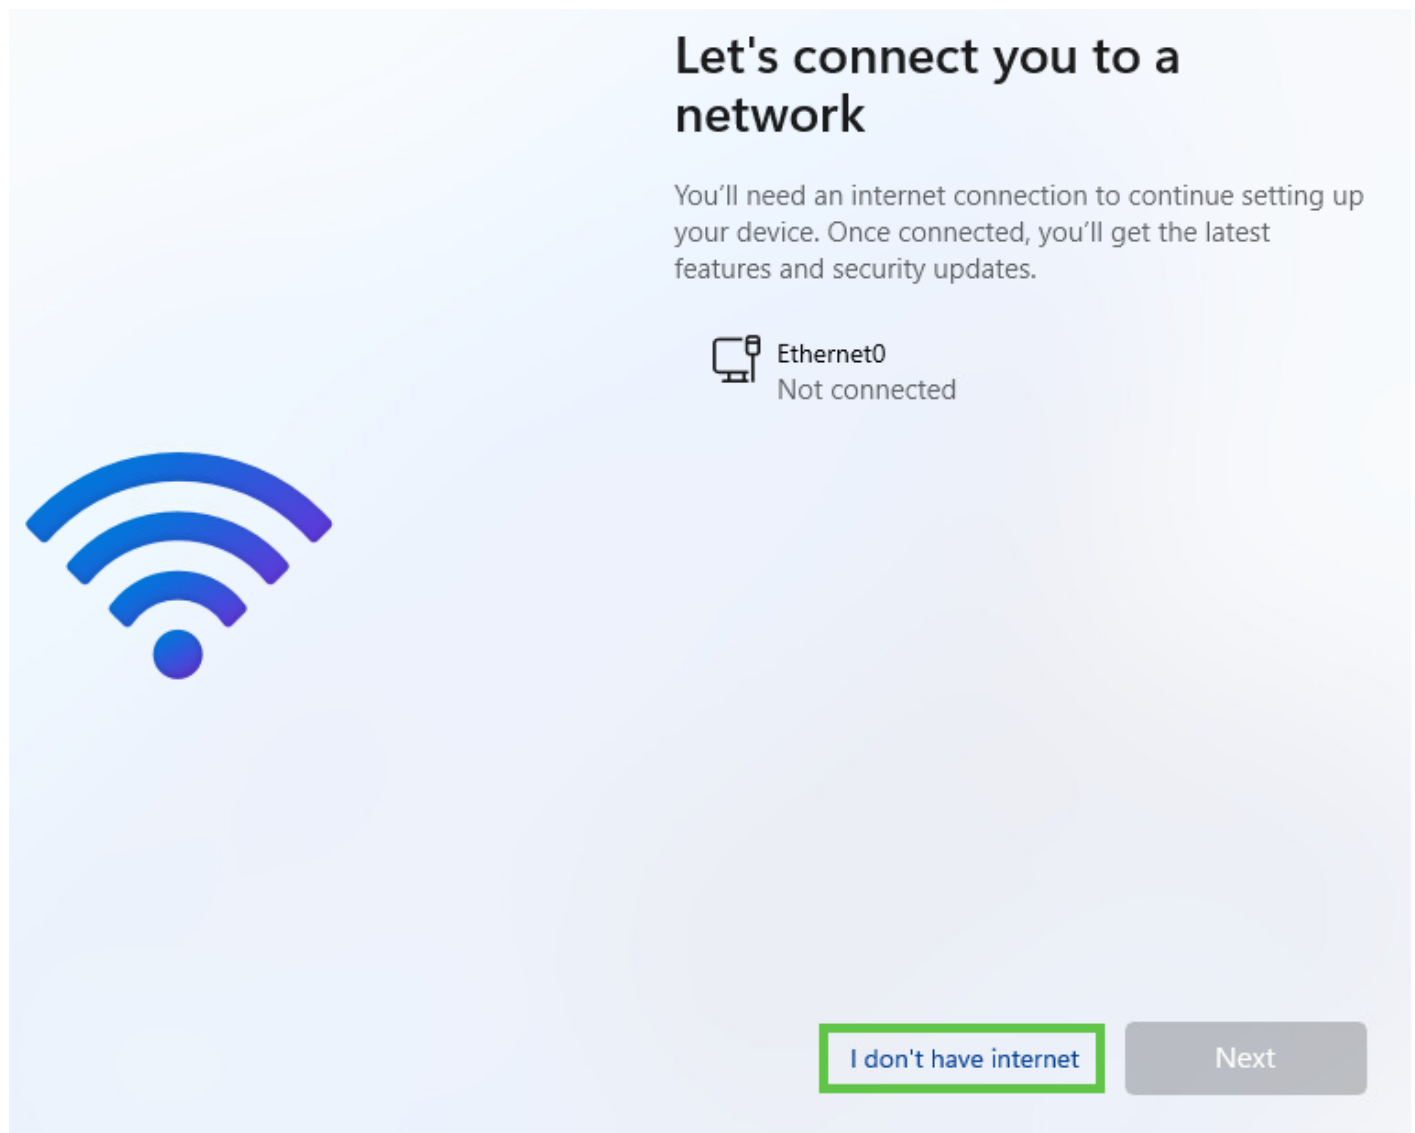

Type this in the command prompt window "**oobe\bypassnro**"

```
C:\> Administrator: C:\Windows\system32\cmd.exe
Microsoft Windows [Version 10.0.22000.318]
(c) Microsoft Corporation. All rights reserved.

C:\Windows\system32>oobe\bypassnro
```

The computer will reboot

Once you get to this screen click on the option "[I don't have internet](#)"

Once on the next screen click on the option "[Continue with limited setup](#)"

## Connect now to quickly get started on your device

Access the full range of apps that help you work and play the way you want when you connect to a network and sign in with Microsoft. Along with being able to browse the internet, get email, and work across devices, you'll also get enhanced features and security.

Continue with limited  
setup

Connect now
